

DECEMBER 2016

FRAMEWORK FOR SUCCESSFUL HEALTH & SAFETY MANAGEMENT

Instructions to candidates:

- a) Time allowed: Three hours (plus an extra ten minutes' reading time at the start – do not write anything during this time)
 - b) Answer any FIVE questions
 - c) All questions carry equal marks. Marks for each question are shown in []
-
1.
 - a) Identify and describe the basic reasons for good health and safety management. [8]
 - b) Describe how societal expectations can influence standards of health and safety. [12]
 2.
 - a) Describe how the cooperation of employees can be gained, and the ways in which this can be achieved, if a successful health and safety culture is to be established. [6]
 - b) Outline the functions of a safety representative from an organisation that has a recognised trade union for collective bargaining purposes. [14]
 3. Evaluate EACH complementary method that can be employed during active monitoring, which address the differing aspects and areas of the organisations. [20]
 4.
 - a) Summarise the THREE stages of a risk control system. [6]
 - b) Discuss which precautions would require consideration in EACH stage of the business activity model. [14]
 5.
 - a) Identify the THREE major components of a safety management system. [3]
 - b) Outline the stages required to gather information as part of an audit, and provide details for EACH stage. [12]
 - c) Explain the benefits of carrying out such an audit. [5]
 6.
 - a) Describe the benefits of reactive monitoring to an organisation. [2]
 - b) Evaluate the types of incidents to identify and report. [10]
 - c) Accurate reporting is imperative. Demonstrate the ways you would actively promote this within any organisation. [8]
 7. Outline the key elements required for effective health and safety management for EACH of the phases listed:
 - a) The planning phase [10]
 - b) The performance phase [10]
 8. Draft a checklist of all the items any audit review of performance should aim to include. [20]
